

Pedestrian Crossing Signals Installation

2025-26 School Year

September 11, 2025

To increase pedestrian safety, the City of Calgary has scheduled the installation of pedestrian crossing signals crossing Coventry Hills Way, north of Nose Creek School.

The project should take 4-6 weeks and work begin sometime in September or October.

It is recommended pedestrians avoid the crosswalk during the installation and use the crosswalks at Coventry Hills Way and either Covepark Square or Covemeadow Road instead.
